Skimmed *Breastfeeding, Race, and Injustice* Andrea Freeman

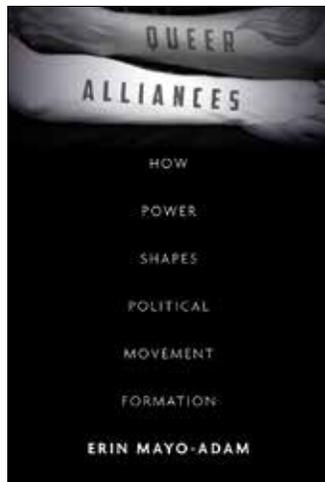

In 1946, Annie Mae Fultz, a Black-Cherokee woman, became the mother of America's first surviving set of identical quadruplets. Their White doctor sold the rights to use the sisters for marketing purposes to the highest-bidding formula company. The girls lived in poverty, while Pet Milk's profits from a previously untapped market of Black families skyrocketed.

Today, baby formula is a seventy-billion-dollar industry and Black mothers have the lowest breastfeeding rates in the country. *Skimmed* tells the riveting story of the Fultz quadruplets while uncovering how feeding America's youngest citizens is awash in social, legal, and cultural inequalities. This book highlights the making of a modern public health crisis, the four extraordinary girls whose stories encapsulate a nationwide injustice, and how we can fight for a healthier future.

"This urgent book reveals the deadly consequences of a health crisis that implicates race, gender, economic, food, and reproductive justice."

Queer Alliances *How Power Shapes Political Movement Formation* Erin Mayo-Adam

Queer Alliances investigates coalition formation among LGBTQ, immigrant, and labor rights activists in the United States, revealing how these new alliances impact the inner workings of each respective political movement. Mayo-Adam examines the extent to which grassroots groups bridged historic divisions based on race, gender, class, and immigration status through the development of coalitions around LGBTQ rights in Washington State and immigrant and migrant rights in Arizona. Detailed, in-depth interviews center local, coalition-based mobilization across and within multiple movements rather than national campaigns and court cases. Mayo-Adam examines the extent to which these coalitions represent and serve intersectionally marginalized communities—groups that are often absent within contemporary accounts of social movement formation.

"A must-read for anyone interested in twenty-first century rights formation and the future of the LGBTQ movement."

Migranthood
Youth in a New Era of Deportation

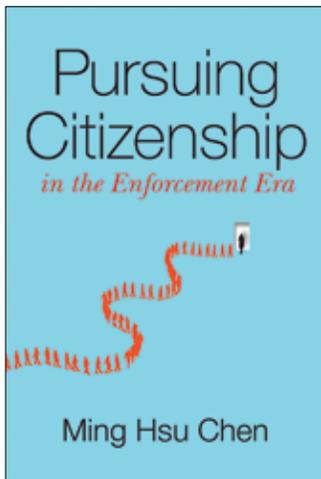

Lauren Heidbrink

Migranthood chronicles deportation from the perspectives of Indigenous youth who migrate unaccompanied from Guatemala to Mexico and the U.S. In communities of origin, zones of transit in Mexico, detention centers in the U.S., government facilities receiving returned children in Guatemala, and communities of return, young people share how they negotiate everyday violence and discrimination, how they and their families prioritize limited resources, make difficult decisions, and how young people develop and sustain relationships over time and space. Lauren Heidbrink uncovers the transnational effects of the securitized responses to migration management and development on individuals and families, across space, citizenship status, and generation.

"A must-read for anyone who cares about migrant youth, and a wake-up call for policymakers recycling failed immigration and development policies."

Pursuing Citizenship in the Enforcement Era

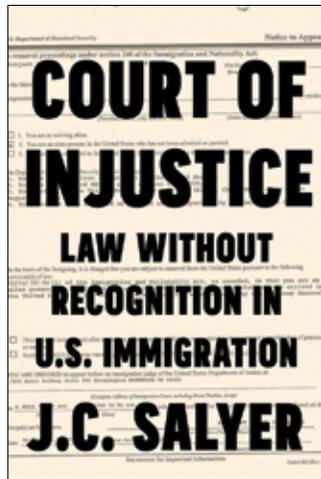

Ming Hsu Chen

Pursuing Citizenship in the Enforcement Era examines the everyday perspectives of immigrants trying to integrate into American society when immigration policy is focused on enforcement and exclusion. The law says that everyone who is not a citizen is an alien, but Ming Hsu Chen argues that the citizen/alien binary should be reframed as a spectrum of citizenship, emphasizing continuities between the otherwise distinct experiences of membership and belonging for immigrants seeking citizenship. Bringing together theories of citizenship with empirical data on integration and analysis of contemporary policy, Chen argues that formal citizenship matters more than ever during times of enforcement and argues for constructing pathways to citizenship that enhance both formal and substantive equality of immigrants.

"As much critique as corrective vision, Ming Chen's powerful book brings us revelatory conversations with immigrants seeking to become citizens."

Court of Injustice
Law Without Recognition in U.S. Immigration

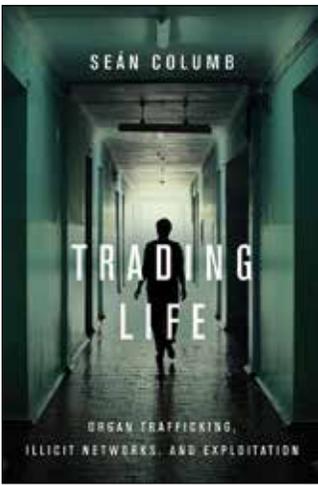

J.C. Salyer

Court of Injustice reveals how immigration lawyers work to achieve just results for their clients in a system that has long denigrated the rights of those they serve. J.C. Salyer's ethnography specifically investigates immigration enforcement in New York City, following individual migrants, their lawyers, and the NGOs that serve them into the immigration courtrooms that decide their cases. Combining anthropological and legal analysis, Salyer demonstrates the economic, historical, political, and social elements that go into constructing inequity under law for millions of non-citizens who live and work in the U.S. Salyer provides a new perspective to the study of migration by focusing specifically on the laws, courts, and people involved in U.S. immigration law.

Trading Life
Organ Trafficking, Illicit Networks, and Exploitation

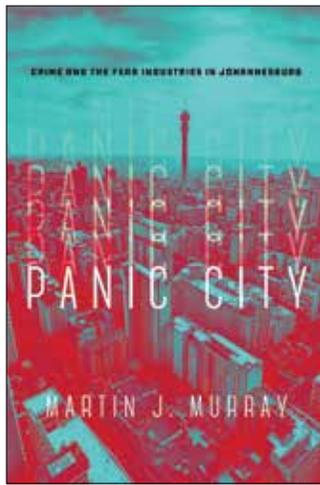

Seán Columb

Drawing on the experiences of African migrants, *Trading Life* brings together five years of fieldwork charting the development of the organ trade from an informal economic activity into a structured criminal network operating within and between Egypt, Libya, Sudan, Eritrea, and Europe. Ground-level analysis provides new insight into the operation of organ trading networks and the impact of current legal and policy measures in response to the organ trade. Columb reveals how investing financial and administrative resources into law enforcement and border securitization at the expense of social services has led to the convergence of illicit smuggling and organ trading networks in the informal economy and the development of organized crime.

Panic City
Crime and the Fear Industries in Johannesburg

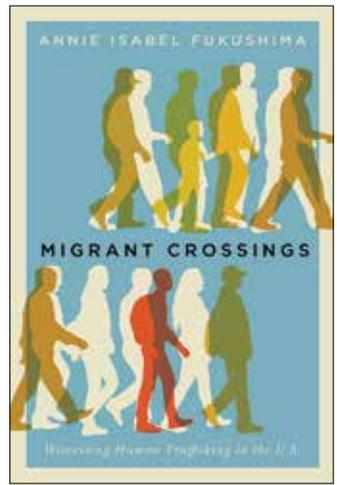

Martin J. Murray

Despite the end of white minority rule and the transition to parliamentary democracy, Johannesburg remains haunted by its history of racial segregation and burdened by enduring inequalities. Under these circumstances, Johannesburg has become one of the most dangerous cities in the world. While wealthy residents have retreated into heavily fortified gated communities and upscale security estates, the less affluent have sought refuge in retrofitting their private homes into safe houses, closing off public streets, and hiring the services of private security companies to protect their suburban neighborhoods. *Panic City* is an exploration of urban fear and its impact on the city's evolving siege architecture, the transformation of policing, and obsession with security that has fueled unprecedented private consumption of 'protection services.'

Tyranny of Greed

Trump, Corruption, and the Revolution to Come

Timothy K. Kuhner

Democracy is being destroyed by an ancient evil and modernity is in denial. In the *Tyranny of Greed*, Timothy K. Kuhner reveals the United States to be a government by and for the wealthy, with Trump—the spirit of infinite greed—at its helm.

Taking readers on a tour through evolutionary biology, psychology, and biblical sources, Kuhner explores how democracy emerged from religious and revolutionary awakenings. He argues that to overcome Trump's regime and establish real democracy, we must reconnect with that radical heritage. Our political tradition demands a revolution against corruption.

"Stunning! Amidst the avalanche of recent books about how the United States became a kleptocracy, this is the one to read. This book is as original and gripping as it is persuasive. Its agenda for transformation is essential, no matter who wins the 2020 election."

Defending the Public's Enemy

The Life and Legacy of Ramsey Clark

Lonnie T. Brown

Defending the Public's Enemy is the first book to explore the enigmatic and perplexing life and legal career of U.S. Attorney General Ramsey Clark. Clark's life and work were enmeshed with some of the most notable people and events of the 1960s: Martin Luther King Jr., the Black Panthers, Muhammad Ali. Clark worked tirelessly, especially to secure the civil rights of black Americans. Upon entering the private sector, the former insider began providing legal defense to internationally-despised figures, alleged terrorists, reputed Nazi war criminals, and brutal dictators. He personifies the contradictions at the heart of American political history, and our ambivalent relationship with marginalized groups, as well as those who embody a fiercely revolutionary spirit.

"This biography of the remarkable Ramsey Clark is careful, thorough, and insightful. It is an important contribution to the history of American lawyering."

The Cult of the Constitution

Mary Anne Franks

WINNER OF THE 2020 PROSE AWARD
IN LEGAL STUDIES, SPONSORED
BY THE ASSOCIATION OF
AMERICAN PUBLISHERS

The Cult of the Constitution reveals how deep fundamentalist strains in both conservative and liberal American thought keeps the Constitution in the service of white male supremacy.

Franks shows that as religious fundamentalists read their sacred scriptures, constitutional fundamentalists read the Constitution selectively and self-servingly. The worship of guns, speech, and the Internet in the name of the Constitution has blurred the boundaries between conduct and speech and between veneration and violence. *The Cult of the Constitution* lays bare the dark, antidemocratic consequences of constitutional fundamentalism and urges readers to take the Constitution seriously, not selectively.

"Uncompromisingly critical, Franks challenges both liberal and conservative views of the Bill of Rights in the name of equality...agree or disagree with Franks's conclusions, her arguments require attention."

Our Non-Christian Nation
How Atheists, Satanists, Pagans, and Others Are Demanding Their Rightful Place in Public Life

Jay Wexler

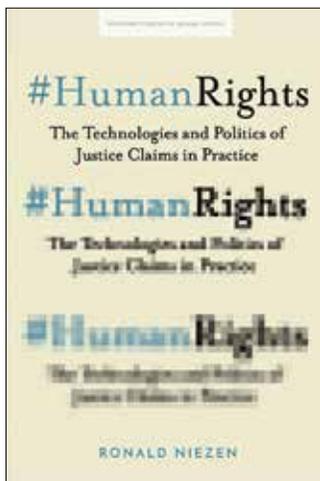

Non-Christians have increasingly been demanding their full participation in public life, bringing their arguments all the way to the Supreme Court. Wexler travels the country to engage non-Christians who have called on us to maintain our ideals of inclusivity and diversity. With his characteristic sympathy and humor, Wexler introduces us to these determined champions of free religious expression, and shows how anyone who cares about pluralism, equality, and fairness must support a public square filled with a variety of religious and non-religious voices. The stakes are nothing short of long-term social peace.

“Timely, trenchant, and tremendously engaging. Our Non-Christian Nation is essential reading for anyone interested in understanding the contemporary battles over religion’s role in our national politics and culture.”

#HumanRights
The Technologies and Politics of Justice Claims in Practice

Ronald Niezen

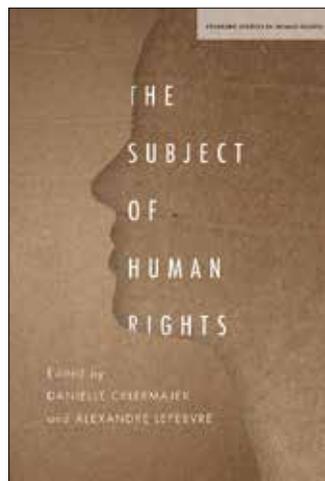

#HumanRights examines how new technologies interact with older models of rights claiming and communication, influencing and reshaping the modern day pursuit of justice.

Ronald Niezen argues that the impacts of information technologies on human rights is not found in an exclusive focus on sophisticated data management, but in considering how these technologies interact with other, “traditional” forms of media to produce new avenues of expression, public sympathy, redress of grievances, and sources of the self. *#HumanRights* paints a striking and important panoramic picture of the contest between authoritarianism and the new tools by which people attempt to leverage human rights and bring the powerful to account.

The Subject of Human Rights
Edited by Danielle Celermajor and Alexandre Lefebvre

The Subject of Human Rights is the first book to systematically address the “human” part of “human rights.” Drawing on the finest thinking in political theory, cultural studies, history, law, anthropology, and literary studies, this volume examines how human rights—as discourse, law, and practice—shape how we understand humanity and human beings. It asks how the humanness that the human rights idea seeks to protect and promote is experienced. The essays in this volume consider how human rights norms and practices affect the way we relate to ourselves, to other people, and to the non-human world. This book suggests ways in which we might reimagine the relationship between human rights and subjectivity with a view to benefitting human rights and subjects alike.

“This book is a path-breaking, multidisciplinary exploration of selfhood and subjecthood. An indispensable rethinking of the field of contemporary human rights studies.”

The Grip of Sexual Violence in Conflict
Feminist Interventions in International Law

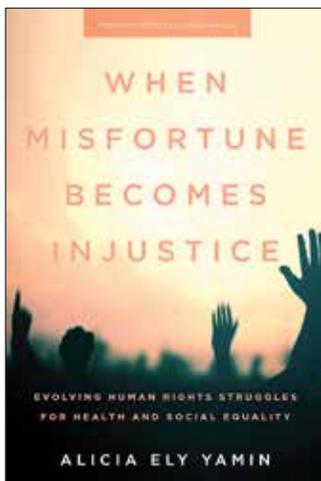

Karen Engle

Through an account of feminist engagement with international law over the past twenty-five years, this book argues that sexual violence in conflict was not as obvious a focus for transnational feminism as it may appear to be in hindsight. As transnational feminists began to pay an enormous amount of attention to sexual violence in conflict, Engle reveals they often did so at the cost of attention to other issues, including the anti-militarism; critiques of economic maldistribution; and imperialism and cultural essentialism by feminists from the global South. Engle argues that these feminist commitments were not merely deprioritized, but undermined, and she asks readers to reconsider the inevitability of today's international feminist norms.

"Required reading for understanding how some powerful feminist approaches to international criminal law have produced more problems than solutions."

When Misfortune Becomes Injustice
Evolving Human Rights Struggles for Health and Social Equality

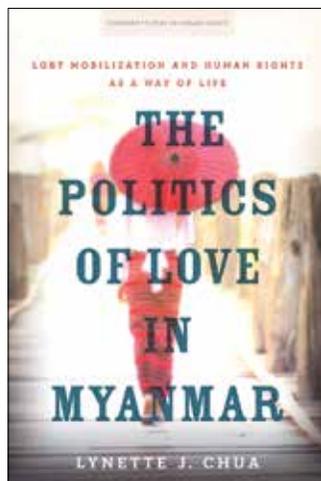

Alicia Ely Yamin

When Misfortune Becomes Injustice surveys the last thirty years of health, economic, and social rights advancement within the international human rights community. Alicia Ely Yamin tells a story of extraordinary progress with respect to the right to health, including how traditional forms of tyranny were curbed, and how new discourses of equality, the welfare state, and inclusive societies were formed. Yamin also shows that the possibilities and political space necessary to advance egalitarian health rights are shrinking and require more attention to growing inequality and building more diverse strategies for resistance and social transformation.

"Yamin draws on years of practical field experience to speak with unique authority among human rights scholars about the global and national dynamics that systematically produce poverty and health inequalities across the world."

The Politics of Love in Myanmar
LGBT Mobilization and Human Rights as a Way of Life

Lynette J. Chua

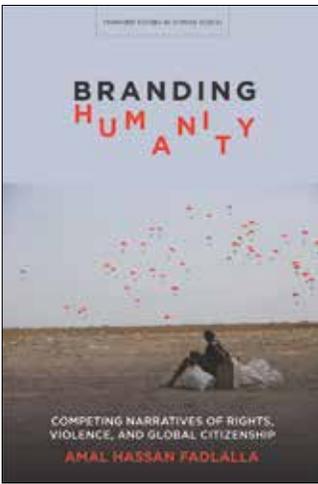

WINNER OF THE 2019 ALSA DISTINGUISHED BOOK AWARD, SPONSORED BY THE ASIAN LAW & SOCIETY ASSOCIATION (ALSA)

The Politics of Love in Myanmar offers an intimate ethnographic account of a group of LGBT activists before, during, and after Myanmar's post-2011 political transition. Lynette J. Chua explores how these activists devoted themselves to, and fell in love with, the practice of human rights and how they were able to empower queer Burmese to accept themselves, gain social belonging, and reform discriminatory legislation and law enforcement. Informed by interviews with activists from all walks of life, Chua details the vivid particulars of the LGBT activist experience founding a movement first among exiles and migrants and then in Myanmar's cities, towns, and countryside.

Amal Hassan Fadlalla

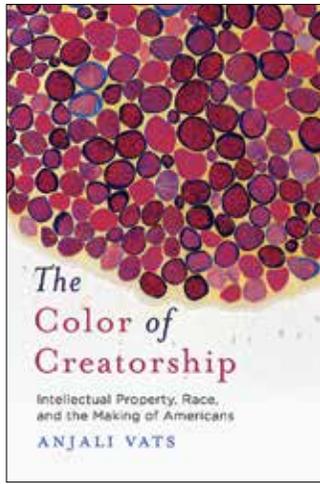

The Save Darfur movement gained an international following, garnering widespread international attention to this remote Sudanese territory. But how do local activists and those throughout the Sudanese diaspora in the United States situate their own notions of rights, nationalism, and identity?

Based on interviews with Sudanese social actors, activists, and their allies in the United States, the Sudan, and online, *Branding Humanity* traces the global story of violence and the remaking of Sudanese identities. Amal Hassan Fadlalla examines how activists contest, reshape, and reclaim the stories of violence emerging from the Sudan and their identities as migrants.

The Color of Creatorship
*Intellectual Property, Race, and
the Making of Americans*

Anjali Vats

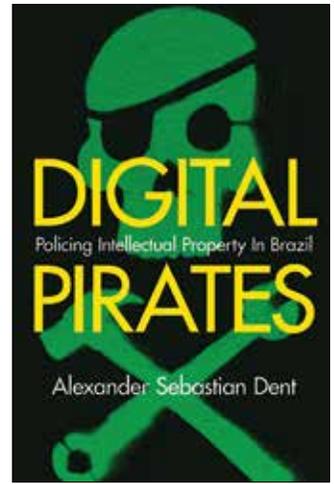

The Color of Creatorship examines how copyright, trademark, and patent discourses work together to form American ideals around race, citizenship, and property.

Working through key moments in intellectual property history since 1790, Anjali Vats reveals that even as they have seemingly evolved, American understandings of who is a creator and who is an infringer have remained remarkably racially conservative and consistent over time. Vats argues that once anti-racist activists grapple with the underlying racial structures of intellectual property law, they can better advocate for strategies that resist the underlying drivers of racially disparate copyright, patent, and trademark policy.

"Anjali Vats elevates the conversation to important new registers, including concerns of equitable distribution and post-racial identity claims."

Digital Pirates
*Policing Intellectual Property
in Brazil*

Alexander Sebastian Dent

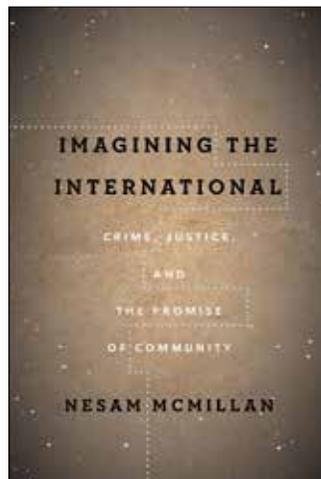

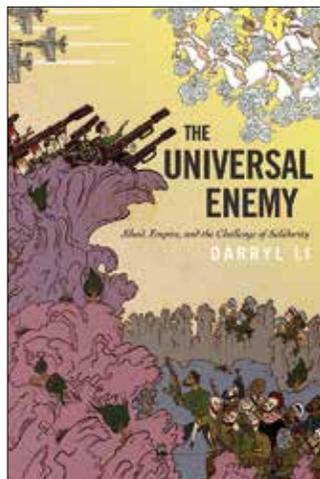

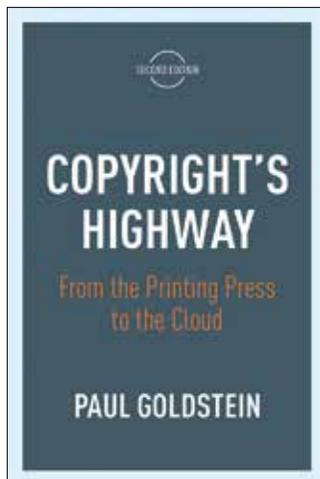

Digital Pirates examines the unauthorized creation, distribution, and consumption of movies and music in Brazil. Alexander Sebastian Dent offers a new definition of piracy as indispensable to current capitalism alongside increasing global enforcement of intellectual property (IP). Complex and capricious laws may prohibit it, but piracy has become a core activity of the twenty-first-century.

Combining the tools of linguistic and cultural anthropology with models from media studies and political economy, *Digital Pirates* reveals how the dynamics of IP and piracy serve as strategies for managing the gaps between texts—in this case, digital content.

"Dent moves fluidly between theoretical and empirical registers to weave a rich account of lived experience in Brazil that illuminates global cultural change."

The Universal Enemy

Jihad, Empire, and the Challenge of Solidarity

Darryl Li

No contemporary figure is more demonized than the Islamist foreign fighter. Spreading violence, disregarding national borders, and rejecting secular norms, so-called jihadists seem opposed to universalism itself. In a radical departure from conventional wisdom, *The Universal Enemy* argues that transnational jihadists are engaged in their own form of universalism: these fighters struggle to realize an Islamist vision directed at all of humanity, transcending racial and cultural difference. Li highlights the parallels between transnational jihads and other universalisms such as the War on Terror. Developed from research with former fighters, this book explores the relationship between jihad and American empire to shed critical light on both.

"This remarkable achievement is anchored in Darryl Li's unique combination of skills and sensibilities, which are at once ethnographic, lawyerly, and linguistic."

Imagining the International

Crime, Justice, and the Promise of Community

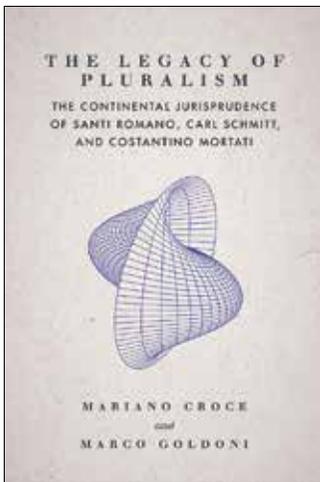

Nesam McMillan

Imagining the International interrogates mainstream understandings of international crime and international justice to tease out their ethical limits and possibilities. Through an analysis of archival and contemporary data, the book provides a sustained picture of how ideas about international crime and justice are given content and the global interrelations they enable and foreclose. Nesam McMillan argues that dominant approaches to conceptualizing distinctly international crime and international justice are problematic because they disconnect these phenomena from the everyday, fostering distance between those who have experienced international crime and those who have not. This book powerfully underscores the importance of the ideas of international crime and justice and their significant limits, cautioning against their continued valorization.

"This book is a compelling call for inclusiveness and a powerful exhortation for globality to transcend post-coloniality."

The Legacy of Pluralism

Mariano Croce and
Marco Goldoni

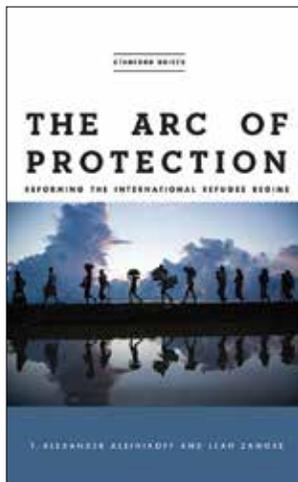

How should the state face the challenge of radical pluralism? How can constitutional orders be changed when they prove unable to regulate society? Santi Romano, Carl Schmitt, and Costantino Mortati, the leading figures of Continental legal institutionalism, provided three responses that deserve our full attention today. *The Legacy of Pluralism* explores the convergences and divergences of these towering jurists to take stock of their ground-breaking analyses of the origin of the legal order and to show how they can help us cope with the current crisis of national constitutional systems.

The Arc of Protection
Reforming the International Refugee Regime

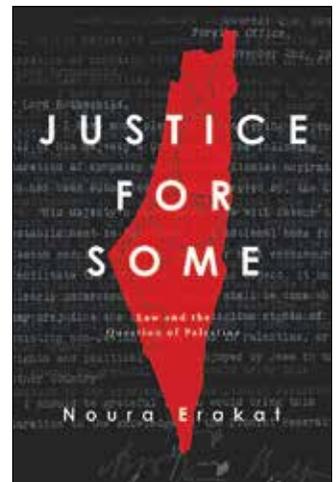

T. Alexander Aleinikoff and
Leah Zamore

Designed in the wake of World War II, the international refugee regime is unable to address the record numbers of persons displaced by conflict and violence today. States have adopted policies to deny, deter, and detain asylum seekers. People recognized as refugees are routinely denied rights guaranteed by international law. The results are dismal for the millions of refugees around the world who are left with slender prospects to rebuild their lives or contribute to host communities.

In *The Arc of Protection* Alexander Aleinikoff and Leah Zamore adopt a revisionist and critical perspective that examines the original premises of the international refugee regime. This book offers a way out of the current international morass through refocusing on responsibility-sharing, seeing the humanitarian-development divide in a new light, and putting refugee rights front and center.

Justice for Some
Law and the Question of Palestine

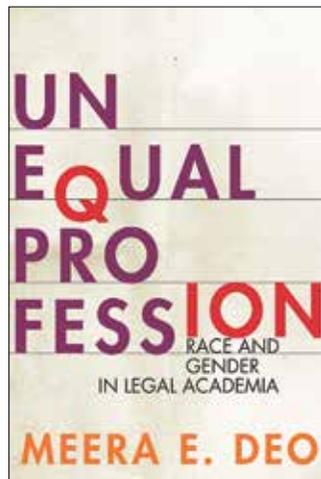

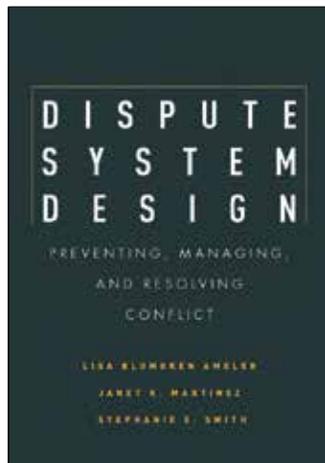

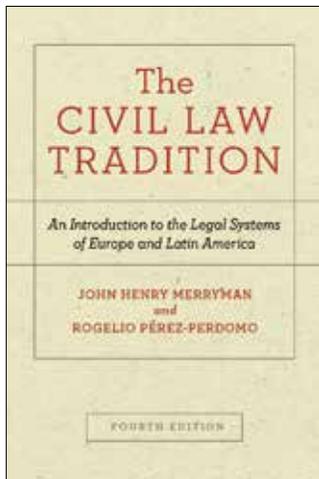

WINNER OF THE 2019 PALESTINE
BOOK AWARDS, SPONSORED BY THE
MIDDLE EAST MONITOR (MEMO).

Justice for Some offers a new approach to understanding the Palestinian struggle for freedom, told through the power and control of international law. Focusing on key junctures—from the Balfour Declaration in 1917 to present-day wars in Gaza—Erakat shows how the strategic deployment of law has shaped current conditions. Over the past century, the law has done more to advance Israel's interests than the Palestinians'. But, Erakat argues, this outcome was never inevitable. Law is politics, and its meaning and application depend on the political intervention of states and people alike. Within the law, change is possible, and international law can serve the cause of freedom when it is mobilized in support of a political movement.
