### **Witnesses of the Unseen** *Seven Years in Guantanamo*

**Lakhdar Boumediene and Mustafa Ait Idir**

This searing memoir shares Lakhdar Boumediene and Mustafa Ait Idir's time inside America's most notorious prison. In 2001, they were arrested in Bosnia, wrongly accused of participating in a terrorist plot, and were flown, blindfolded and shackled, to Guantanamo Bay, Cuba. For seven years, they endured torture, harassment, force-feedings, and beatings. They had no opportunity to argue their innocence until 2008, when the Supreme Court issued a landmark ruling in their case, *Boumediene v. Bush*, confirming Guantanamo detainees' constitutional right to challenge their detention. Weeks later, a federal judge, stunned by the absence of evidence against them, ordered their release. Now living in Europe and rebuilding their lives, Lakhdar and Mustafa share a story that every American ought to know.

*"An intense, important read for anyone interested in the American government's misguided efforts at Guantanamo."*

—Kirkus Reviews

288 pages, April 2017

### **The High Cost of Good Intentions** *A History of U.S. Federal Entitlement Programs*

**John F. Cogan**

Federal entitlement programs are strewn throughout the pages of U.S. history, springing from the noble purpose of assisting people who are destitute through no fault of their own. Yet as federal entitlement programs have grown, so too have their inefficiency and their cost.

*The High Cost of Good Intentions* is the first comprehensive history of these federal entitlement programs. Combining economics, history, political science, and law, John F. Cogan reveals how the creation of entitlements brings forth a steady march of liberalizing forces that cause entitlement programs to expand. This process is as visible in the eighteenth and nineteenth centuries as in the present day. His work provides a unifying explanation for the evolutionary path that nearly all federal entitlement programs have followed over the past 200 years, tracing both their shared past and the financial risks they pose for future generations.

## Presidential Leverage *Presidents, Approval, and the American State*

Daniel E. Ponder

For scholars, pundits, the public, and presidents themselves, presidential approval is an evergreen subject. Its actual impact, however, is often unclear: all too frequently approval is reported in a vacuum, dissociated from the American state writ large. *Presidential Leverage* reaffirms the importance of this contested metric. By situating approval within the context of public trust in government, Daniel E. Ponder reveals how approval shapes presidential strategies for governing, providing a useful measure of the president's place in the political system. Using a quantitative index of presidential leverage, Ponder examines this contextualized approval from John F. Kennedy's administration through Barack Obama's, showing how it has shaped presidential capacity and autonomy, agenda setting, landmark legislation, and unilateral action.

*"Engaging and thoughtful, rich in its historical inquiry and contemporary relevance."*

—Rodney Hero,

## The Dual Executive *Unilateral Orders in a Separated and Shared Power System*

Michelle Belco and  
Brandon Rottinghaus

Popular perception holds that presidents resort to unilateral orders to promote an agenda and head off unfavorable legislation. Little research, however, has considered the diverse circumstances in which such orders are issued. *The Dual Executive* reinterprets how and when presidents use unilateral power by illuminating the dual roles of the president. Drawing from an original data set of over 5,000 executive orders and proclamations from the Franklin D. Roosevelt to the George W. Bush administrations, this book situates unilateral orders within the broad scope of executive-legislative relations. Michelle Belco and Brandon Rottinghaus recast the executive as both an aggressive "commander" and a cooperative "administrator" who uses unilateral power not only to circumvent Congress, but also to support and facilitate its operations.

*"Belco and Rottinghaus provide fresh insight into the use and limits of unilateral power."*

—Douglas L. Kriner,  
Boston University

256 pages, May 2017

## Judicial Independence and the American Constitution *A Democratic Paradox*

Martin H. Redish

The Framers of the American Constitution established a judicial branch to protect and enforce constitutional limits. They recognized that, paradoxically, only a counter-majoritarian judicial branch can ensure the continued vitality of our representational government.

This paradox of American democracy has been challenged and often ignored by office holders and legal scholars. Martin H. Redish defends the centrality of these special protections of judicial independence. He explains how the nation's system of counter-majoritarian constitutionalism cannot survive absent the vesting of final powers of constitutional interpretation and enforcement in the one branch of government expressly protected from direct political accountability: the judicial branch.

*"Ignore Redish at your peril. This well-written and accessible book is sure to be oft-cited for decades."*

**Broke and Patriotic**  
*Why Poor Americans Love  
Their Country*

Francesco Duina

Why are poor Americans so patriotic? In *Broke and Patriotic*, Francesco Duina contends that the best way to answer this question is to speak directly to America's most impoverished. Spending time in bus stations, Laundromats, senior citizen centers, homeless shelters, public libraries, and fast food restaurants, he conducted over 60 revealing interviews in which his participants explain how they view themselves and their country.

This book offers a stirring portrait of the people left out of the national conversation. By giving them voice, Duina sheds new light on a sector of American society that we are only beginning to recognize as a powerful force in shaping the country's future.

*"This is superlative ethnography, allowing voices too little heard to speak for themselves, and to do so with pride. Social understandings can be furthered more by this book than by any other at present in the marketplace."*

—John A. Hall,  
McGill University

**STUDIES IN SOCIAL INEQUALITY**

**Ballot Blocked**  
*The Political Erosion of the  
Voting Rights Act*

Jesse H. Rhodes

Over the past five decades, both Democrats and Republicans in Congress have consistently voted to expand the protections offered by the Voting Rights Act. And yet, the administration of the VRA has become more fragmented, and judicial interpretation of its terms has become much less generous.

*Ballot Blocked* argues that conservatives adopt a paradoxical strategy in which they acquiesce to expansive voting rights protections in Congress (where decisions are visible and easily traceable) while simultaneously narrowing the scope of federal enforcement via administrative and judicial maneuvers (which are less visible and harder to trace). Over time, this strategy has enabled a conservative Supreme Court to exercise preponderant influence over the scope of federal enforcement.

*"Bold and richly detailed. Rhodes provides timely and crucial new insights into the Voting Rights Act's evolution and undoing."*

**SECOND EDITION**  
**Democracy and Political  
Ignorance**  
*Why Smaller Government  
Is Smarter*

Ilya Somin

One of the biggest problems with modern democracy is that most of the public is ignorant of politics. This creates a nation of people with little political knowledge and little ability to objectively evaluate what they do know. The second edition of *Democracy and Political Ignorance* fully updates its analysis to include new, vital discussions on the "Big Sort," the link between ignorance and the disproportionate influence of the wealthy, proposed new strategies for increasing political knowledge, and up-to-date survey data. Ilya Somin reveals political ignorance as a major problem for democracy, one best mitigated by decentralizing and limiting government.

*"A must-read for anyone wanting to understand the pathologies of American democracy and what we can do about it."*

—Jason Brennan,  
author of *The Ethics of Voting*

312 pages, 2016

**The Right's First Amendment**  
*The Politics of Free Speech and the Return of Conservative Libertarianism*

Wayne Batchis

Not so long ago, being aggressively “pro-free speech” was as closely associated with American political liberalism as being pro-choice or pro-gun control. Yet today, for many conservatives, free speech represents a crucial shield that protects traditionalists from a perceived scourge of political correctness and liberal oversensitivity. Free market conservatives have risen up to embrace a now cherished liberty: freedom of commercial expression. Surveying six decades of writings from the conservative publication National Review, alongside the evolving constitutional law and ideological predispositions of Supreme Court justices, Wayne Batchis reveals how this keystone of our civic beliefs now carries a complex political identity.

*“An important and readable guide to the transition from conservative moralism to conservative libertarianism.”*

—Mark Graber,  
 University of Maryland  
 School of Law

**Raised Right**  
*Fatherhood in Modern American Conservatism*

Jeffrey R. Dudas

What, and who, holds together the modern conservative movement’s corporate interests, small-government libertarians, social traditionalists, and evangelical Christians?

*Raised Right* pursues an answer through a study of three iconic figures: National Review editor William F. Buckley, Jr., President Ronald Reagan, and Supreme Court Justice Clarence Thomas. Jeffrey R. Dudas identifies a “paternal rights discourse”—arguments about fatherhood and rights that permeate the men’s personal lives and political visions. Each argued that paternal discipline produced autonomous citizens worthy and capable of self-governance, which provided the cohesive agent for an entire movement, uniting its celebration of its “founding fathers,” past and present, constitutional and biological.

*“I began this book a skeptic and finished it a convert. A true tour de force.”*

—Malcolm M. Feeley,  
 University of California, Berkeley

**In Rome We Trust**  
*The Rise of Catholics in American Political Life*

Manlio Graziano

The “Catholicization” of the United States is a recent phenomenon and was particularly prominent in the Obama administration. Over one-third of cabinet members, the Vice President, the White House Chief of Staff, the heads of Homeland Security and the CIA, the director and deputy director of the FBI, and the Chairman of the Joint Chiefs of Staff were all Roman Catholic. Challenging received wisdom that the American Catholic Church is in crisis and that the political religion in the United States is Evangelicalism, Manlio Graziano provides an engaging account of the tendency of Catholics to play an increasingly significant role in American politics, as well as the rising role of American prelates in the Roman Catholic Church.

*“This fascinating and astonishingly neglected subject is of immense importance, and I can think of no one better positioned than Manlio Graziano to treat it in all its complexity.”*

—Stanislao G. Pugliese,  
 Hofstra University

256 pages, March 2017  
 9781503601819 Paper \$25.95 **\$20.76 sale**

**The Transparency Fix**  
*Secrets, Leaks, and Uncontrollable Government Information*

**Mark Fenster**

Government information cannot be controlled. *The Transparency Fix* asserts that both transparency movements and secrecy advocates hold the mistaken belief that government information can be released or kept secure on command.

In truth, the world did not end because Julian Assange, WikiLeaks, and Edward Snowden released classified information. But nor was there a significant political change. Using a variety of examples to examine how government information actually flows, Mark Fenster describes how the legal regime's tenuous control over state information belies the promise and peril of transparency. He challenges us to confront the implausibility of controlling government information despite our obsession with transparency and secrecy.

*"No one has done more than Mark Fenster to challenge the premises and policies of the open government movement. This book will be foundational in critical transparency studies."*

 Columbia Law School

296 pages, July 2017  
 9781503602663 Paper \$25.95 **\$20.76 sale**

**The Poverty of Privacy Rights**  
 Khiara M. Bridges

*The Poverty of Privacy Rights* makes a simple, controversial argument: Poor mothers in America are deprived of the right to privacy. The U.S. Constitution is supposed to bestow rights equally. Yet the poor are subject to invasions of privacy that are gross demonstrations of governmental power. Khiara M. Bridges investigates poor mothers' experiences with the state—both when they receive public assistance and when they do not. Presenting a holistic view of how the state intervenes in all facets of poor mothers' privacy, Bridges turns popular thinking on its head, arguing that these women simply do not have familial, informational, and reproductive privacy rights. Further, she asserts that until we disrupt the cultural narratives that equate poverty with immorality, nothing will change.

*"This book calls us to rethink the very meaning of the right to privacy and to end the unjust and unsupportable moral condemnation of poverty."*

—Dorothy Roberts,  
 author of *Killing the Black Body*

 9781503602267 Paper \$24.95 **\$19.96 sale**

**The Balance Gap**  
*Working Mothers and the Limits of the Law*

**Sarah Cote Hampson**

In recent decades, laws and workplace policies have emerged that seek to address the "balance" between work and family. Millions of women in the U.S. take time off when they give birth or adopt a child, making use of "family-friendly" laws and policies.

*The Balance Gap* traces the paths individual women take in understanding and invoking work/life balance laws and policies. Conducting in-depth interviews in two distinctive workplace settings—public universities and the U.S. military—Sarah Cote Hampson uncovers how women navigate the laws and the unspoken cultures of their institutions. As Hampson shows, these policies and women's abilities to understand and utilize them have fallen short of alleviating the tensions women experience.

*"Elegantly written and timely, The Balance Gap is a rigorous call to action in transforming how we view the ideal mother and the ideal worker."*

—Renée Ann Cramer,  
 Drake University

**Voting Together**  
*Intergenerational Politics and  
Civic Engagement among  
Hmong Americans*

**Carolyn Wong**

Hmong American immigrants have made a notable impact in American political life. They have high voter participation rates and have won seats in local and state legislative bodies. Yet the average level of education among Hmong Americans still lags behind that of the general U.S. population, and high poverty rates persist.

Carolyn Wong analyzes how the Hmong came to pursue politics as a key path to advancement and inclusion in the United States. Drawing on interviews with community leaders, refugees, and the second-generation children of immigrants, she shows that intergenerational mechanisms of social voting underlie the political participation of Hmong Americans.

*“Voting Together forces readers to reconsider traditional theories of community empowerment and identity formation. Theoretically rich and nuanced, this is a must-read for those interested in ethnic politics.”*

—Janelle Wong,  
University of Maryland

**My Journey at the  
Nuclear Brink**  
**William J. Perry**

*My Journey at the Nuclear Brink* is a continuation of William J. Perry's efforts to keep the world safe from a nuclear catastrophe. Decades of experience and special access to top-secret knowledge of strategic nuclear options have given Perry a unique, and chilling, vantage point from which to conclude that nuclear weapons endanger our security rather than securing it.

*“In clear, detailed, powerful prose, My Journey at the Nuclear Brink tells the story of Perry's seventy-year experience of the nuclear age. Beginning with his firsthand encounter with survivors living amid ‘vast wastes of fused rubble’ in the aftermath of World War II, his account takes us up to today when Perry is on an urgent mission to alert us to the dangerous nuclear road we are traveling.”*

**Anchor Babies and the Challenge of Birthright Citizenship**

Leo R. Chavez

Birthright citizenship has a deep and contentious history in the United States, one often hard to square in a country that prides itself on being “a nation of immigrants.” Recently, a provocative and decidedly more offensive term than birthright citizenship has emerged: “anchor babies.” Leo R. Chavez counters the often-hyperbolic claims surrounding this term. He considers how it is used as a political dog whistle, how changes in the legal definition of citizenship have affected the children of immigrants over time, and, ultimately, how U.S.-born citizens still experience trauma if they live in families with undocumented immigrants. By examining this pejorative term in its political, historical, and social contexts, Chavez calls upon us to exorcise it from public discourse and work toward building a more inclusive nation.

## Challenged Hegemony

*The United States, China, and Russia in the Persian Gulf*

Steve A. Yetiv and  
Katerina Oskarsson

Few issues in international affairs and energy security animate thinkers more than the classic topic of hegemony, and the case of the Persian Gulf presents particularly fertile ground for considering this concept. Steve A. Yetiv and Katerina Oskarsson offer a panoramic study of hegemony and foreign powers in the Persian Gulf, offering the most comprehensive, data-driven portrait to date of their evolving relations.

The authors argue that the United States has become hegemonic in the Persian Gulf, ultimately protecting oil security for the entire global economy. Through an analysis of official and unofficial diplomatic relations, trade statistics, military records, and more, they provide a detailed account of how U.S. hegemony and oil security have grown in tandem, as, simultaneously, China and Russia have increased their political and economic presence.

## The Politics of Weapons Inspections

*Assessing WMD Monitoring and Verification Regimes*

Nathan E. Busch and  
Joseph F. Pilat

Given recent controversies over suspected WMD programs in proliferating countries, there is an increasingly urgent need for effective monitoring and verifications regimes—the mechanisms intended to clarify the status of WMD programs in suspected proliferators. *The Politics of Weapons Inspections* examines the successes, failures, and lessons that can be learned from past WMD monitoring and verification regimes in order to help determine how best to establish and maintain such regimes in the future. In addition to examining these regimes' technological, political, and legal contexts, Nathan E. Busch and Joseph F. Pilat reevaluate the track record of monitoring and verification in the historical cases of South Africa, Libya, and Iraq. They further apply the lessons learned from these cases to contemporary controversies over suspected or confirmed programs in North Korea, Iran, and Syria.

## Beyond the Euromaidan

*Comparative Perspectives on Advancing Reform in Ukraine*

Edited by Henry E. Hale and  
Robert W. Ortung

*Beyond the Euromaidan* examines the prospects for advancing reform in Ukraine in the wake of the February 2014 Euromaidan revolution and Russian invasion. It examines six crucial areas where reform is needed, providing one chapter that focuses on Ukraine's own experience and one chapter that examines the issue in the broader context of international practice.

Placing Ukraine in comparative perspective shows that many of the country's problems are not unique and that other countries have been able to address many of the issues currently confronting Ukraine. Ultimately, the authors propose a series of reforms that can help Ukraine make the best of a bad situation. The book stresses the need to focus on reforms that might not have immediate effect, but that comparative experience shows can solve fundamental contextual challenges.

## The Power of Economists within the State

Johan Christensen

The spread of market-oriented reforms has been one of the major political and economic trends of the late twentieth and early twenty-first centuries. Governments have adopted policies that have led to deregulation; yet, some countries embraced these policies more than others. Johan Christensen examines one major contributor to this disparity: the entrenchment of U.S.-trained, neoclassical economists in political institutions the world over. While previous studies have highlighted the role of political parties and production regimes, Christensen uses comparative case studies of New Zealand, Ireland, Norway, and Denmark to show how the influence of economists affected the extent to which each nation adopted market-oriented tax policies. He finds that, in countries where economic experts held powerful positions, neoclassical economics broke through with greater force.

*"A finely tuned and deeply knowledgeable account. A page-turner on tax policy is surely an event to celebrate."*

—Mark Granovetter,  
Stanford University

232 pages, April 2017  
9781503600492 Cloth \$65.00 **\$52.00 sale**

## Sweet Talk

*Paternalism and Collective Action in North-South Trade Relations*

J. P. Singh

Developed nations strive to create the impression that their hearts and pockets bleed for the developing world. Yet, the global North continues to offer unfavorable trade terms to the global South.

Using a mixed-methods approach, J. P. Singh exposes the actual position beneath the North's image of benevolence and empathy: either join in the type of trade that developed countries offer, or be cast aside as obstreperous and unwilling. Through case studies, Singh reveals how the global North ultimately bars developing nations from flourishing. His findings chart a path forward, showing that developing nations can garner favorable concessions by drawing on unique strengths and through collective advocacy. *Sweet Talk* offers a provocative rethinking of how far our international relations have come and how far we still have to go.

*"This riveting analysis shows the pernicious effects that culture clashes can have on the well-being of billions."*

—B. Peter Rosendorff,  
New York University

264 pages, January 2017  
9781503601048 Paper \$24.95 **\$19.96 sale**

## Breaking the WTO

*How Emerging Powers Disrupted the Neoliberal Project*

Kristen Hopewell

The world economic order has been upended by the rise of the BRIC nations and the attendant decline of the United States' international influence. This book provides a groundbreaking analysis of how power shifts in the world economic order have played out in the World Trade Organization. Historically, the U.S. has pressured other countries to open their markets while maintaining its own protectionist policies. But, over the course of the Doha Round negotiations in 2008, China, India, and Brazil challenged America's hypocrisy, causing negotiations to collapse. Probing the tensions between the WTO's liberal principles and the underlying reality of power politics, Kristen Hopewell explores what the Doha conflict tells us about the current and coming balance of power in the global economy.

*"Hopewell's analysis is invaluable to understanding one of global neoliberalism's key institutions."*

—Peter Evans,  
University of California, Berkeley

288 pages, 2016  
9781503600591 Paper \$27.95 **\$22.36 sale**

## Hard Target

*Sanctions, Inducements, and the Case of North Korea*

Stephan Haggard and Marcus Noland

This book captures the effects of sanctions and inducements on North Korea and reconstructs the role of economic incentives around the country's nuclear program. Stephan Haggard and Marcus Noland draw on an array of evidence to show the reluctance of the North Korean leadership to weaken its grip on foreign economic activity. They argue that inducements have limited effect on the regime, and instead urge policymakers to think in terms of gradual strategies. *Hard Target* connects economic statecraft to the marketization process to understand North Korea and addresses a larger debate over the merits and demerits of "engagement" with adversaries.

*"An innovative study of the evolving political economy of North Korea. Amid an increasing application of sanctions, Hard Target contributes much needed sophistication and nuance to over-simplified debates about dealing with North Korea."*

—John S. Park,  
Harvard University

## The Indonesian Way

*ASEAN, Europeanization, and Foreign Policy Debates in a New Democracy*

Jürgen Rüländ

On December 31, 2015, the ten-member Association of Southeast Asian Nations (ASEAN) founded the ASEAN Community (AC). Political commentators and media outlets, however, greeted its establishment with little fanfare. Implicitly and explicitly, they suggested that the AC was only the beginning: Southeast Asia, they seemed to say, was taking its first steps on a linear process of unification that would converge on the model of the European Union.

In *The Indonesian Way*, Jürgen Rüländ challenges this previously unquestioned diffusion of European norms. Focusing on the reception of ASEAN in Indonesia, Rüländ traces how foreign policy stakeholders have responded to calls for ASEAN's Europeanization, ultimately fusing them with their own distinctly Indonesian form of regionalism.

*"An essential study of comparative regionalism and Indonesia's role in the ASEAN Charter."*

—Randall Schweller,  
Editor-in-Chief, *Security Studies*

## Taiwan's China Dilemma

*Contested Identities and Multiple Interests in Taiwan's Cross-Strait Economic Policy*

Syaru Shirley Lin

China and Taiwan share one of the world's most complex international relationships. Although similar cultures and economic interests promoted an explosion of economic ties between them since the late 1980s, these ties have not led to an improved political relationship. *Taiwan's China Dilemma* explains the divergence between the development of economic and political relations across the Taiwan Strait through the interplay of national identity and economic interests. Using primary sources, opinion surveys, and interviews with Taiwanese opinion leaders, Syaru Shirley Lin paints a vivid picture of one of the most unsettled and dangerous relationships in the contemporary world.

*"The combination of a fresh theoretical approach—focusing on the role of national identity—and strong empirical analysis makes Taiwan's China Dilemma a must-read for anyone interested in the dynamic cross-Strait relationship."*

—Scott L. Kastner,  
University of Maryland, College Park

**Uneasy Partnerships**  
*China's Engagement with Japan, the Koreans, and Russia in the Era of Reform*

Edited by Thomas Fingar

*Uneasy Partnerships* presents the analysis and insights of practitioners and scholars who have shaped and examined China's interactions with key Northeast Asian partners—Japan, the Koreans, and Russia. This text analyzes the perceptions, priorities, and policies of China and its partners to explain why dyadic relationships evolved as they have during China's "rise."

*"A masterful examination of China's complex interactions with its immediate neighbors. The fine-grained strands of this complex story are woven into a compelling macro-level analysis of Northeast Asia that will be applauded by experts and generalists alike."*

**Zouping Revisited**  
*Adaptive Governance in a Chinese County*

Edited by Jean C. Oi and Steven M. Goldstein

China has undergone dramatic change in its economic institutions in recent years, but surprisingly little change politically. Somehow, the political institutions seem capable of governing a vastly more complex market economy and a rapidly changing labor force. One possible explanation, examined in *Zouping Revisited*, is that within the old organizational molds there have been subtle but profound changes to the ways these governing bodies actually work. The authors take as a case study the local government of Zouping County and find that it has been able to evolve significantly through ad hoc bureaucratic adaptations and accommodations that drastically change the operation of government institutions.

*"Grounded in the soil of rural China, this book examines the startling ways old institutional structures are repurposed to perform new functions."*

**The Colonial Origins of Ethnic Violence in India**  
 Ajay Verghese

The neighboring north Indian districts of Jaipur and Ajmer are identical in language, geography, and religious and caste demography. But in recent decades, these multiethnic communities have displayed differing patterns of ethnic conflict. Using archival research and elite interviews in five case studies across India, as well as a quantitative analysis of 589 districts, Ajay Verghese shows that the legacies of British colonialism are key drivers of contemporary conflict. Additionally, because India served as a model for British colonial expansion into parts of Africa and Southeast Asia, this book links Indian ethnic conflict to violent outcomes in states as diverse as Nigeria and Malaysia.

*"Outstanding. Verghese offers fresh hypotheses about the sources of different types of ethnic violence across India."*

**Divergent Memories**  
*Opinion Leaders and the Asia-Pacific War*

Gi-Wook Shin and Daniel Sneider

Debate over the history of World War II in Asia remains surprisingly intense, and this book examines the opinions of powerful individuals to pinpoint the sources of conflict: from Japanese colonialism in Korea and atrocities in China to the American use of atomic weapons against Japan. Rather than labeling others' views as "distorted" or ignoring dissenting voices to create a monolithic historical account, Gi-Wook Shin and Daniel Sneider pursue a more fruitful approach: analyzing how historical memory has developed, been formulated, and even been challenged in each country.

*"Mobilizing evidence from interviews to pop culture to textbooks, the authors show how personal experience, political change, regional diplomacy, and national identity shaped war narratives; they also suggest a path to armistice. Essential reading."*

**Contested Embrace**  
*Transborder Membership Politics in Twentieth-Century Korea*

Jaeun Kim

*Contested Embrace* explores how a state relates to people it views as "external members," such as emigrants and diasporas. Jaeun Kim analyzes disputes over the belonging of Koreans in Japan and China, focusing on their contested relationship with the colonial and postcolonial states in the Korean peninsula. Through a comparative analysis of transborder membership politics in the colonial, Cold War, and post-Cold War periods, the book shows how the configuration of geopolitics, bureaucratic techniques, and actors' agency shapes the making, unmaking, and remaking of transborder ties. Kim demonstrates that being a "homeland" state or a member of the "transborder nation" is a precarious, arduous, and revocable political achievement.

*"A brilliant and bracing analysis of transborder membership politics. It is a great book to think with."*

**Revolution without Revolutionaries**  
*Making Sense of the Arab Spring*

Asef Bayat

The revolutionary wave that swept the Middle East in 2011 was marked by spectacular mobilization. However, it has caused limited shifts in structures of power, leaving much of the old political and social order intact. In this book, Asef Bayat uncovers why this occurred and what made these uprisings so distinct from those that came before.

*Revolution without Revolutionaries* is both a history of the Arab Spring and a history of revolution writ broadly. Setting the 2011 uprisings side by side with the revolutions of the 1970s, particularly the Iranian Revolution, Bayat reveals a profound global shift in the nature of protest: protestors call for reform rather than fundamental transformation.

*"Asef Bayat is in the vanguard of a subtle and original theorization of social movements and social change in the Middle East. Essential reading."*

**Morbid Symptoms**  
*Relapse in the Arab Uprising*  
Gilbert Achcar

In this eagerly awaited book, foremost Arab world and international affairs specialist Gilbert Achcar analyzes the factors of the post-2011 relapse in the Middle East. Focusing on Syria and Egypt, Achcar assesses the present stage of the Arab Uprising and the main obstacles, both regional and international, that prevent any resolution. Events in Syria and Egypt offer salient examples of a pattern of events happening across the Middle East. *Morbid Symptoms* offers a timely analysis of the ongoing Arab uprising that will engage experts and general readers alike. Drawing on a unique combination of scholarly and political knowledge of the Arab region, Achcar argues that, short of radical social change, the region will not reach stability any time soon.

*"One of the best analysts of the contemporary Arab world."*

**Soundtrack of the Revolution**  
*The Politics of Music in Iran*  
Nahid Siamdoust

Music was one of the first casualties of the Iranian Revolution. It was banned in 1979, but it quickly crept back into Iranian culture and politics. Drawing on her research in Iran, including during the 2009 protests, Nahid Siamdoust closely follows the work of four musicians, each with markedly different political views and relations with the Iranian government. Taken together, these examinations shed light on issues at the heart of debates in Iran—about its future and identity, changing notions of religious belief, and the quest for political freedom.

*"A groundbreaking study of a potent cultural register in post-revolutionary Iran. For both the casual reader and the aficionado, Siamdoust's pioneering insights are revelatory."*

**The Art of Revolt**  
*Snowden, Assange, Manning*

Geoffroy de Lagasnerie

When not decried as traitors, Edward Snowden, Julian Assange, and Chelsea Manning are seen as whistle-blowers whose crucial revelations are meant to denounce a problem or correct an injustice. Yet, for Geoffroy de Lagasnerie, they are much more than that. They are exemplars who have reinvented an art of revolt. Consciously or not, they have inaugurated a new form of political action and a new identity for the political subject.

Anonymity as practiced by WikiLeaks and the flight and requests for asylum of Snowden and Assange break with traditional forms of democratic protest. As Lagasnerie suggests, such solitary choices challenge us to question classic modes of collective action, calling old conceptions of the state and citizenship into question. In the process, he pays homage to the actions and lives of these three figures.

*“A striking and radical new perspective on truth-tellers in the Internet age.”*

**Popular Democracy**  
*The Paradox of Participation*

Gianpaolo Baiocchi and  
 Ernesto Ganuza

In the United States, three-fourths of all cities have developed opportunities for citizen involvement in strategic planning. But even as these opportunities have become more popular, many contend that they have also become less connected to actual centers of power and the jurisdictions where issues relevant to communities are decided.

With this book, Gianpaolo Baiocchi and Ernesto Ganuza consider the opportunities and challenges of democratic participation. Examining how participation has traveled the world—with its inception in Porto Alegre, Brazil, and spread to Europe and North America—they show how participatory instruments have become more focused on the formation of public opinion and are far less attentive to actual reform. Though the current impact and benefit of participatory forms of government is ambiguous, *Popular Democracy* concludes with suggestions of how participation could better achieve its political ideals.

**Classical Geopolitics**  
*A New Analytical Model*

Phil Kelly

Geopolitics is the study of how the projection of power (ideological, cultural, economic, or military) is effected and affected by the geographic and political landscape. Despite the real world relevance of geopolitics, a common understanding of what classical geopolitics is and how it works still lies beyond the reach of both researchers and practitioners. In *Classical Geopolitics*, Phil Kelly attempts to build a common theoretical model, incorporating a host of variables that reflect the complexity of the modern geopolitical stage. He then analyzes thirteen pivotal but widely differing historical events to test the efficacy of his model as a comprehensive geopolitical analytical tool that can be used across a broad spectrum of geopolitical contexts and events.

*“This book makes an important contribution to the current literature on geopolitics. The theoretical approach it takes is both innovative and stimulating, and it displays an impressive synthesis of existing theoretical ideas. A milestone reinterpretation of geopolitical theory.”*

## Queer Theory

*The French Response*

Bruno Perreau

In 2012 and 2013, masses of French citizens took to the streets to demonstrate against a bill on gay marriage. But demonstrators were not merely denouncing gay marriage; they were also claiming that its origins lay in “gender theory,” an ideology imported from the United States. What are the various facets of the French response to queer theory, from the mobilization of activists and the seminars of scholars to the emergence of queer media and the decision to translate this or that kind of book? By examining mutual influences across the Atlantic, Bruno Perreau analyzes changes in the idea of national identity in France and the United States. In the process, he offers a new theory of minority politics: an ongoing critique of norms is not only what gives rise to a feeling of belonging; it is the very thing that founds citizenship.

*“A signature contribution to contemporary political and critical theory.”*

## The Prince of This World

Adam Kotsko

The most enduring challenge to traditional monotheism is the problem of evil: God is all-good and all-powerful, and yet evil happens. *The Prince of This World* traces the story of the offloading of responsibility for evil onto one of God's rebellious creatures. In this striking reexamination, the devil emerges as a theological symbol who helps justify oppression at the hands of Christian rulers. And he evolves alongside the biblical God, who at first presents himself as the liberator of the oppressed but ends up a cruel ruler. This is the story, then, of how God becomes the devil—a devil who remains with us in our ostensibly secular age.

*“This diabolically gripping genealogy offers a stunning parable of Western politics, religious and secular. With the ironic wisdom of a postmodern Beatrice, Kotsko guides us through the sequence of hells that leads to our own.”*

—Catherine Keller,  
Drew University

9781503600201 Paper \$22.95 **\$18.36 sale**

**Jimmy Carter in Africa**  
*Race and the Cold War*  
 Nancy Mitchell

In the late 1970s, the Cold War overseas seemed to take a backseat to more contentious domestic issues, including race relations. Racism at home undermined Americans' efforts to "win hearts and minds" abroad and provided potent propaganda to the Kremlin. As President Carter confronted Africa, American foreign policy slammed up against the most explosive and raw aspect of American domestic politics—racism.

Drawing on candid interviews with Carter, as well as key diplomats, and on an array of international archival sources, Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself. Mitchell reveals an administration not beset by weakness and indecision, but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings.

*'A truly definitive account of one of the most challenging and important aspects of my presidency.'*

—Jimmy Carter,  
 Former President of the United States

**Trust, but Verify**  
*The Politics of Uncertainty and the Transformation of the Cold War Order, 1969–1991*

Edited by Martin Klimke, Reinhold Kries, and Christian F. Ostermann

*Trust, but Verify* uses trust—with its emotional and predictive aspects—to explore international relations in the second half of the Cold War. The détente of the 1970s led to the development of some limited trust between the United States and the Soviet Union, but it also created uncertainty in other areas, especially on the part of smaller states that depended on their alliance leaders for protection. The contributors to this volume look at how the "emotional" side of the conflict affected the dynamics of various Cold War relations.

*"An insightful explanation for one of the great puzzles of recent history: how the Cold War, a seemingly indestructible international regime, came to an end. The essays take seriously the mission of relating the political, economic, and cultural factors to emotions history."*

—Frank Costigliola,  
 University of Connecticut

**The Politics of Rights and the 1911 Revolution in China**  
 Xiaowei Zheng

China's 1911 Revolution was a momentous political transformation. Its leaders, however, were not rebellious troublemakers on the periphery of imperial order. On the contrary, they were a powerful political and economic elite deeply entrenched in local society. The revolution they spearheaded produced a new, democratic political culture that enshrined national sovereignty, constitutionalism, and the rights of the people as indisputable principles.

Based upon previously untapped Qing and Republican sources, *The Politics of Rights and the 1911 Revolution in China* is a nuanced and colorful chronicle of the revolution as it occurred in local and regional areas. Xiaowei Zheng explores the ideas that motivated the revolution, the popularization of those ideas, and their animating impact on the Chinese people at large. The focus of the book is not on the success or failure of the revolution, but rather on the transformative effect that revolution has on people.

**The Social Life of Politics**  
*Ethics, Kinship, and Union Activism in Argentina*

Sian Lazar

A central motor of Argentine historical and political development since the early twentieth century, unions have been the site of active citizenship in both political participation and the distribution of social, economic, political, and cultural rights. *The Social Life of Politics* examines the intimate, personal, and family dimensions of two political activist groups: the Union of National Civil Servants (UPCN) and the Association of State Workers (ATE). Sian Lazar examines how activists in both unions create themselves as particular kinds of militants and forms of political community. She places the lived experience of political activism into historical relief and shows how ethics and family values deeply inform the process by which political actors are formed and understood.

*"Sian Lazar provides fresh insight into the moral foundations of political commitment and collective identity. This book opens up fertile new terrain."*

—Webb Keane,  
author of *Ethical Life: Its Natural and Social Histories*

256 pages, June 2017

**Contraband Corridor**  
*Making a Living at the Mexico–Guatemala Border*

Rebecca Berke Galemba

The Mexico–Guatemala border has emerged as a geopolitical hotspot of illicit flows of both goods and people. *Contraband Corridor* seeks to understand the border from the perspective of its long-term inhabitants, including petty smugglers of corn, clothing, and coffee. Challenging assumptions regarding security, trade, and illegality, Rebecca Berke Galemba details how these residents engage in and justify extralegal practices in the context of heightened border security, restricted economic opportunities, and exclusionary trade policies. Rather than assuming that extralegal activities necessarily threaten the state and formal economy, Galemba's ethnography illustrates the complex ways that the formal, informal, legal, and illegal economies intertwine.

*"This grounded, 'bottom up' account draws much-needed attention to this too often overlooked border while carefully avoiding the alarmism and sensationalism found in popular depictions of cross-border smuggling."*

—Peter Andreas,  
Brown University

**Campaigning for Children**  
*Strategies for Advancing Children's Rights*

Jo Becker

*Campaigning for Children* focuses on contemporary children's rights, identifying the range of abuses that affect children today, including early marriage, female genital mutilation, child labor, sex trafficking, corporal punishment, the impact of armed conflict, and access to education. Jo Becker traces the last 25 years of the children's rights movement, including the evolution of international laws and standards to protect children from abuse and exploitation. From a practitioner's perspective, Becker provides careful case studies of the organizations and campaigns that are making a difference in the lives of children.

*"This book examines initiatives and strategies to show that change for children is possible, and that remarkable transformation is achievable. With its most compelling evidence, it will go a long way in ensuring that human rights of children are protected worldwide."*

## Just Violence

*Torture and Human Rights in the Eyes of the Police*

Rachel Wahl

Stark revelations about police brutality have stoked heated debates about the use of force. Despite public interest, we know little about the police officers who commit violence such as torture. Through interviews with law enforcers in India, Rachel Wahl uncovers what motivates officers to use and support torture, and how these beliefs shape their responses to human rights norms. While human rights workers attempt to both persuade and coerce police officers into compliance, these strategies can undermine each other, leaving the movement with complex dilemmas regarding whether to work with or against violent state officials.

*“Just Violence offers an alternative explanation of police violence and the misfit between local conceptions of justice and the general principles of the human rights system. This provocative book offers new insights into human rights education and the enduring tensions between rights and security.”*

—Sally Engle Merry,  
New York University

## Rights after Wrongs

*Local Knowledge and Human Rights in Zimbabwe*

Shannon Morreira

*Rights After Wrongs* ethnographically explores the chasm between the ideals and the practice of human rights, detailing the ways in which the global framework of human rights is locally interpreted, constituted, and contested among Zimbabweans, in both Zimbabwe and South Africa. Presenting the stories of those who lived through the violent struggles of the past decades, Shannon Morreira shows how supposedly universal ideals become localized in the context of post-colonial Southern Africa. She uncovers the disconnect between the ways human rights appear on paper and the ways in which it is possible for people to use and understand them in everyday life.

*“The global movement of refugees and migrants is the human rights issue of the twenty-first century. Shannon Morreira elegantly documents the struggles of Zimbabwean refugees and exiles in South Africa, drawing out the wider implications for concepts of personhood, rights, and migration.”*

—Richard A. Wilson,
